

Zoom Settings to Record Bird Song

Step 1: Turn the dial on the top of the recorder so the white triangle points to **2ch**.

Step 2: Set the gain dial on the side of the recorder to **"10"**. Make sure to double check the dial is in the right position before making a recording, as it can move in transport.

Step 3: Select the Audio Format.

- Click the MENU button on the side of the recorder
- Use the PLAY toggle to highlight **REC** and push the PLAY toggle to select it
- Select **REC FORMAT** and scroll using the PLAY toggle to select **WAV44.1kHz/16bit**
- Exit by clicking the MENU button repeatedly

Step 4: To change the 2 AA batteries, press down with both thumbs on the back of the zoom and slide the plastic case off.

Step 5: To access the SD card, open the plastic flap labeled "SD HC" on the bottom of the zoom. Wav files are large, ensure you have enough space on the card.

You are now ready to make recordings!
